Master's Program

Application Guidelines for International Students

2023 School Year
(2nd Application Period)

岩手県立大学
Iwate Prefectural University

Admission Policy for the Graduate School of Software and Information Science

Admission Policies

The Graduate School of Software and Information Science accepts students who are interested in and passionate about information technology, and who have the following knowledge, skills, abilities, sense of purpose, and motivation.

1. Those who can understand the various impacts and effects of information technology on people and society.
2. Those who have intellectual inquisitiveness and imagination, and can study and use knowledge and skills related to information technology.
3. Those who can identify their own aptitude and skills, and work independently and systematically on a study and research.
4. Those who can express their own opinions clearly, and discuss with considering the opinions of others..

Diploma Policies (Degree Awarding Policies)

The Graduate School of Software and Information Science aims to nurture people who can plan, design, develop, maintain, and operate information techniques and systems from the user's point of view with a sense of responsibility and ethics, and who have originality that can be used in an international society and flexibility to cope with rapid social changes. We confer a Master's Degree in Software and Information Science to those who fulfill the requirements for completion as stipulated in the University's academic regulations, deeming them to have the following abilities.

DP1: Those who are passionate about the field of information technology, can accurately identify their own aptitude and skills, and continue their studies and research systematically with high motivation.

DP2: Those who can make a right judgement of its various impacts and effects on people and society, and feel the responsibility as a technical expert and researcher.

DP3: Those who can discover issues on information technology and systems from a user's perspective, pave the way to appropriate methods to solve them, and hold the skills to resolve them.

DP4: Those who can apply scientific attainments in their specialized field and broad knowledge and skills in information technology and systems to solve problems by planning, designing, developing, maintaining, and operating various schemes and systems from an international perspective of a scientist and an engineer.

DP5: Those who can clearly express their own opinions from a scientist's and an engineer's viewpoint, and conduct logical discussions with considering the opinions of others.

I. Admission Quota and Enrollment Period

Master's Program, Major in Software and Information Science, Graduate School of Software and Information Science

Category	Number of Students to be Admitted	Enrollment Period
2 nd Application Period	19 (including recommended applicants, mid-career applicants, and international students)	April 2023 or October 2023 (choice of applicant)

II. Application Eligibility

1. Eligibility

Applicants with non-Japanese nationality (excluding permanent residents of Japan) must fulfill one of the following requirements (1) to (9), as well as requirement (10).

- (1) Have graduated from a university as defined in Article 83 of the School Education Act (Act No. 26 of 1947), or be expected to graduate from such a university by the end of March 2023 (or by the end of September 2023 for those who wish to enroll in October 2023).
- (2) Have received a bachelor's degree as stipulated by the School Education Act (Article 104, Clause 4), or be expected to receive such a degree by the end of March 2023 (or by the end of September 2023 for those who wish to enroll in October 2023).
- (3) Have completed 16 years of school education outside of Japan, or be expected to complete such school education by the end of March 2023 (or by the end of September 2023 for those who wish to enroll in October 2023).
- (4) Have completed a 16-year course of study provided via correspondence by an overseas school for study in Japan, or be expected to complete such a course by the end of March 2023 (or by the end of September 2023 for those who wish to enroll in October 2023).
- (5) Have completed a program at an educational facility in Japan, designated separately by the Minister of Education, Culture, Sports, Science and Technology, that provides courses of a foreign university within the school education system of that foreign country, or be expected to complete such a program by the end of March 2023 (or by the end of September 2023 for those who wish to enroll in October 2023). (This applies solely to those who have completed 16 years of school education in the said foreign country.)
- (6) Have received a degree corresponding to bachelor's degree by a foreign university or an educational facility in foreign country after completed educational program, including a corresponding course, more than 3 years at the school. The educational facility has to be recognized as a school equivalent to university by local government or institutions concerned and designated by the Minister of Education, Culture, Sports, Science and Technology, or expected to receive the degree by March, 2023 (or by the end of September 2023 for those who wish to enroll in October 2023).
- (7) Have completed a specialized course specifically designated by the Minister of Education, Culture, Sports, Science and Technology at a vocational school (whose minimum period required for graduation is four years or longer, and which also satisfies other conditions specified by the said Minister) on or after the date designated by the said Minister, or be expected to complete such a course by the end of March 2023 (or by the end of September 2023 for those wish to enroll in October 2023).
- (8) Be designated by the Minister of Education, Culture, Sports, Science and Technology (The Ministry of Education, Science, Sports and Culture, Notification No. 5, 1953)
- (9) Satisfy one of the conditions below and be approved by the Graduate School through screening as having acquired the credits prescribed by the Graduate School with excellent academic results.
 - i . Have completed 15 years of school education outside of Japan, or be expected to complete such school education by the end of March 2023 (or by the end of September 2023 for those who wish to enroll in October 2023).

- ii . Have completed a 15-year course of study provided via correspondence by an overseas school for study in Japan, or be expected to complete such a course by the end of March 2023 (or by the end of September 2023 for those who wish to enroll in October 2023).
- iii. Have completed a program at an educational facility in Japan, designated separately by the Minister of Education, Culture, Sports, Science and Technology, that provides courses of a foreign university within the school education system of that foreign country, or be expected to complete such a program by the end of March 2023 (or by the end of September 2023 for those who wish to enroll in October 2023). (This applies solely to those who have completed 15 years of school education in said foreign country.)

(10) Satisfy one or more of the conditions below.

- i . Have passed “N2” or higher of the Japanese Language Proficiency Test (administered by Japan Educational Exchanges and Services and the Japan Foundation) within the five years prior to the second last day of the application period.
- ii . Have obtained the target score or higher on the English proficiency tests designated by the Graduate School.

Test	Target Scores
TOEFL	(PBT) 463 or higher / (iBT) 50 or higher
TOEIC	480 or higher

- Applicants are required to have taken one of the English proficiency tests within **the two years prior to** the second last day of the application period.
- For other qualifications, please contact the Entrance Examination Group at the Education Support Division.

- iii. Have permanent resident status in a country where English is an official language.

2. Applicants Who Need Screening for Application Eligibility

Those who fall under category (9) in “1. Eligibility” in section II on page 3 are required to undergo screening for application eligibility in advance. The screening criteria are described below. However, they are not necessary for graduates of a university of a foreign country that implements a 15-year school curriculum. For more details, please see “III. Screening for Application Eligibility” on page 4.

- (1) Applicants are required to have attended university for three years by the end of March 2023 (or by the end of September 2023 for those who wish to enroll in October 2023). Leaves of absence from university shall not be counted in the period of attendance.
- (2) Applicants must satisfy one of the requirements below.

- i . For April 2023 Enrollment and October 2023 Enrollment, applicants are required to have completed subjects corresponding to the compulsory technical subjects (including compulsory elective subjects) that are offered by the Faculty of Software and Information Science, Iwate Prefectural University in its first term of the third academic year by the end of September 2022 for Entrance Examination in February 2023, and have deficit grade point of two or less in total. The calculation method for deficit grade points: zero (0) for a Grade A or higher, one (1) for a Grade B, and two (2) for a Grade C (i.e., pass).
- ii . For April 2023 Enrollment and October 2023 Enrollment, you are required to have completed subjects corresponding to the compulsory technical subjects (including compulsory elective subjects) that are offered by the Faculty of Software and Information Science, Iwate Prefectural University in its first term of the third academic year by the end of September 2022 for the Entrance Examination in February 2023, with excellent grades, and have a research accomplishment equivalent to a graduation thesis.

****Important notice****

- If a successful applicant is found to have failed to satisfy the criterion (1) (regarding the period of attendance), the admission will

be revoked, even after enrollment.

- Successful applicants who have passed through the eligibility screening are admitted to the Graduate School without graduating from the faculty they had attended. This means that they are not able to obtain undergraduate status. Accordingly, they are not eligible to take certification examinations that require the status of a university graduate.

3. Pre-application Consultation

Applicants are **required** to contact a prospective supervisor from whom they wish to receive academic instruction after enrollment. Please enter the details of the consultation on your Research Plan (Form B). The Form must carry the signature and/or bear the seal of the supervisor, or have attached communication records (e.g., photocopies of fax transmissions, hard copies of e-mail messages, and the like) as proof of pre-consultation.

Contact:

Entrance Examination Group, Education Support Division, Iwate Prefectural University 152-52 Sugo, Takizawa, Iwate 020-0693, Japan Tel: 019-694-2014

Note: Inquiries by telephone are available only in Japanese.

Should you wish to make an inquiry in English, please send us an e-mail at ipu-nyushi@ml.iwate-pu.ac.jp.

III. Screening for Application Eligibility

Applicants falling under category (9) in “1. Eligibility” in section II on page 3 are required to undergo screening for application eligibility in advance. Please submit the following materials by post. **Please write in red, “Materials for Application Eligibility Screening Enclosed: Master’s Program, Graduate School of Software and Information Science” on the front cover of the envelope** and send by **registered express mail** if applying from within Japan or by **Express Mail Service (EMS)** if applying from outside of Japan.

1. Materials to be submitted

- ① Request Form for Application Eligibility Screening (University-prescribed form)
- ② Form A: Curriculum Vitae (University-prescribed form)
- ③ Academic Transcript (Prescribed form of your educational institute)
- ④ FormB: Research Plan (University-prescribed form)
- ⑤ Form F: Achievement Record (University-prescribed form)
- ⑥ Certificate of Completion (or expected completion) (Prescribed form of your educational institute)
- ⑦ Certificate of Enrollment (for the period of attendance) (Prescribed form of your educational institute)
- ⑧ A research accomplishment equivalent to a graduation thesis (For applicants falling under category (2) ii . in “2. Applicants Who Need Screening for Application Eligibility” in section II on page 4.)
- ⑨ JLPT Certificate of Result and Scores that shows you have obtained Japanese Language Proficiency Level N2 or higher, a certificate of results on English proficiency tests designated by the Graduate School, or a photocopy of your passport (excluding permanent residents of Japan)
- ⑩ (For applicants residing in Japan) A self-addressed envelope (Type No. 2) with the applicant’s address written on the front cover. (Affix the necessary amount of postage.)
- ⑪ (For applicants residing overseas) International Postal Coupons

[Number of coupons needed]

Region	Asia	North America, Central America, Oceania, Middle East	Europe	South America, Africa
Number of coupons needed	11	16	17	19
Japanese yen	1,400 yen	2,000 yen	2,200 yen	2,400 yen

Note: If you wish to enclose Japanese postage stamps instead of International Postal Coupons, please make sure that the value of the stamps is equivalent to the relevant amount described above.

****Important notice****

- Documents written in a language other than English must be accompanied by a Japanese or English translation. The applicant's own translation is acceptable. Translated documents should bear the signature of the translator and his/her contact details (e-mail address and telephone number).

2. Submission Period

(1) Submission period

- **2nd Application Period: from Wednesday, December 7, 2022 to Friday, December 9, 2022**

(No later than 4:00 p.m. on Friday, December 9, 2022)

(Applications received after the deadline will not be accepted. Please be sure to submit the necessary materials well in advance of the deadline.)

However, if there is a postmark (up to Wednesday, December 7 for the 2nd Application Period) and it was sent by registered express mail from within Japan, submissions that arrive after 4:00 p.m. on the last day of the submission period will still be accepted.

(2) Notification of Results

Along with the submitted materials, the result of the Screening for Application Eligibility will be sent to applicants by post on the following dates.

- **2nd Application Period: Monday, December 19, 2022**

Successful applicants are required to complete the application procedure within the prescribed period.

Submit to:

Entrance Examination Group, Education Support Division, Iwate Prefectural University 152-52 Sugo, Takizawa, Iwate 020-0693, Japan Tel: 019-694-2014

Note: Enquiries by telephone are available only in Japanese.

Should you wish to make an enquiry in English, please send us an e-mail at ipu-nyushi@ml.iwate-pu.ac.jp. The subject should start with [Graduate School].

	Check Sheet for Required Documents	<ul style="list-style-type: none"> • Please print out on A4-sized paper in color, and paste on the address side of the envelope. • This sheet will be output with “Application Form for Admission” after the registration and payment are completed. • Please use to confirm all the necessary documents, and enclose with them.
<p>Note 1: Documents written in a language other than English must be accompanied by a Japanese or English translation. The applicant’s own translation is acceptable. Translated documents should carry the signature of the translator and his/her contact details (e-mail address and telephone number).</p> <p>Note 2: If postage rates are revised, please submit stamps equivalent to the new rates.</p>		

◎ To apply, please submit the aforementioned documents in an envelope with Addressed Envelope Sheet pasted on its surface.

8. Print the Examination Admission Card

- You will be able to output the Examination Admission Card after the application period.
- The noticing email will be sent to your registered email address.

It will be available on or after February 1st, 2023, even if you haven’t received the noticing mail from provider.

- Please print out the card and detach along the dotted line, and never forget to bring on the examination day.

Contact:	<ul style="list-style-type: none"> • It is necessary to login for payment, printout application forms and Examination Admission Card • Please access to online application website and login to your own account with your e-mail address and password. • If there are any problems, please contact the Entrance Examination Group. <p>Entrance Examination Group, Education Support Division, Iwate Prefectural University 152-52 Sugo, Takizawa, Iwate 020-0693, Japan Tel: 019-694-2014</p>
----------	-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

9. Important Reminders Regarding Application

- The application procedure is not completed by only register for the website.

It is necessary to complete payment of admission fee, and also to submit all required documents within the deadline.

- Incomplete application documents will not be accepted.
- Documents should be filled clearly and accurately with a black ballpoint pen or in black ink.
- Subsequent revisions to application documents are not allowed after the application has been filed. However, if your name, address, and/or telephone number have changed, please contact the Entrance Examination Group at the Education Support Division.
- Once accepted, application documents will not be returned to applicants.
- Applicants found to have falsified their application documents will have their acceptance revoked, even after enrollment.
- Applicants with disabilities who require special consideration in order to take the examination or in the course of their expected studies should contact the Entrance Examination Group at the Education Support Division by the following dates.

- 2nd Application Period: Friday, December 16, 2022

V. Selection Method

1. Selection Method

Candidates for admission are screened comprehensively based on their performance during the oral examination and the evaluation of submitted documents and materials.

The oral examination includes questions and answers (to elicit basic knowledge in his/her specialized field of study and English proficiency). The oral examination will be conducted in Japanese in principle, but may be conducted in English if necessary.

2. Examination Dates

- **2nd Application Period: Saturday, February 18, 2023**

Note: Details of the examination schedule (date, time to enter the examination room, examination start time, etc.) will be provided to applicants along with the Examination Admission Card sent to them.

3. Examination Place

Iwate Prefectural University

Directions to IPU: <https://www.iwate-pu.ac.jp/universityguide/directions.html>

4. Important Reminders on Taking the Examination

- The Examination Admission Card must be carried with you during the examination and presented if requested by the officials in charge.
- If you forget to bring the Examination Admission Card on the examination day, please immediately request issuance of a temporary admission card at the Examination Headquarters. The Examination Admission Card should be retained as it will be required when you request disclosure of your examination results afterwards.
- You are required to be seated in the designated classroom by the designated start time and to wait for the examination. Those who are not in the room at the designated start time will be treated as absent.
- Mobile phone and other electronic devices are required to be switched off before entering the classroom.
- The lending or borrowing of items between examinees is totally prohibited.
- No food services are available on campus on the examination days.
- Telegram service agencies for examination results may be present around the university premises on the day of the examination. Please be aware that they are not related to the university. Accordingly, we will not be responsible for any problems that may occur by using such agencies.
- Examinees are allowed to visit the university premises beforehand only on the afternoon of the day prior to the examination day, but entering the university buildings is not allowed.
- Any additional notifications will be sent by E-mail.

VI. Announcement and Successful Applicants

- **2nd Application Period: at 1:00 p.m. on Tuesday, February 28, 2023** (projected)
- Successful applicants will receive a Notification of Acceptance by post. A list of examinee numbers of the successful applicants will be posted on the University website at <https://www.iwate-pu.ac.jp/>
- Enquiries regarding the examination results will not be accepted.

VII. Enrollment Procedure

1. Enrollment Procedure

(1) Period for enrollment procedure

Documents necessary for the enrollment procedure must arrive during the following period without fail.

- 2nd Application Period / October 2023 Admission: from Monday, March 6, 2023 to Friday, March 10, 2023

(2) How to enroll

Those who wish to enroll must send the necessary documents for the enrollment procedure (the relevant forms will be sent to successful applicants along with the Notification of Acceptance) by post using the envelope provided. Please send by **registered express mail** if submitting from within Japan or by **Express Mail Service (EMS)** if submitting from outside of Japan.

Submission in person at the office is allowed during the following period.

- 2nd Application Period / October 2023 Admission: from 1:00 p.m. to 4:00 p.m. on Wednesday, March 8 2023
from 1:00 p.m. to 4:00 p.m. on Thursday, March 9 2023
from 1:00 p.m. to 4:00 p.m. on Friday, March 10, 2023

2. Payment for the First Year (as of April 1, 2022)

(1) Admission fee

The following amount is required for admission.

- Residents of Iwate Prefecture: 225,600 yen
- Non-residents of Iwate Prefecture: 338,400 yen

To be considered a resident of Iwate Prefecture, either the successful applicant or his/her spouse or first-degree relative must have lived in Iwate Prefecture continuously for one year prior to the date of enrollment (i.e., April 1, 2022 for April 2023 Enrollment; October 1, 2022 for October 2023 Enrollment). Non-residents of Iwate Prefecture are all those who do not fall under the abovementioned category.

(2) Tuition fee

Payment of tuition fee is to be made twice a year, for the first semester (by the end of May) and for the second semester (by the end of October).

Annual tuition fee: 535,800 yen

Note: If the tuition fee is revised, the revised amount will be charged.

(3) Other expenses

- Gakusei Kyoiku Kenkyu Saigai Shogai Hoken* (Disaster and Accident Insurance for Students) and *Gakkensai Futai Baisho Sekinin Hoken* (Personal Liability Insurance for Students)

Students are required to purchase policies for both of the above forms of insurance at the time of enrollment.

For Master's program students Duration of insurance: two years Insurance fee: 2,080 yen

- Information regarding other expenses will be provided along with the Notification of Acceptance.

3. Procedure for Residence Status

International students are required to acquire a visa before entering Japan. Guidance information on the necessary procedure for visa acquisition will be sent to successful applicants. Please prepare and submit the necessary documents in accordance with the guidance.

Note: This procedure is obligatory for all international students except those who are already residing in Japan with foreign student status.

4. Others

(1) Admission fee exemption

Those who meet any of the following conditions at the time of enrollment in the Graduate School are subject to receive an

exemption from the admission fee requirement.

- a. A student of any faculty of Iwate Prefectural University for three years or longer; or has graduated from any faculty of the University.
- b. A student who has graduated from Iwate Prefectural University Morioka Junior College or Iwate Prefectural University Miyako College.
- c. A student who has completed studies at any Graduate School of Iwate Prefectural University.
- d. A student who has been deemed especially eligible for the exemption by the Chairman of Iwate Prefectural University.

(2) Exemption, payment by installments, deferred payment of tuition fee

Exemption, payment by installments, or deferred payment of tuition fee are available for students who have great difficulty in paying tuition fee or other expenses due to financial hardship or unexpected disaster, etc.

(3) Extended study program

The extended study program is a system that enables students in special circumstances, such as being in full-time work, to complete the course curriculum over a certain period of time exceeding the original duration of study (two years) in a well-planned way.

Those who take advantage of this program may pay their tuition fee (same amount as required for the regular program) by installment in accordance with the extended period.

5. Withdrawal of Enrollment into the Graduate School

If you wish to withdraw from the enrollment after the procedure, please inform to the Entrance Examination Group at the Education Support Division (Tel. 019-694-2014) by each deadline below.

- April 2023 Admission: 0:00pm on Friday, March 31, 2023
- October 2023 Admission: 0:00pm on Friday, September 29, 2023

The remitted admission fee and application documents will not be returned.

VIII. Request for the Disclosure of Personal Test Results

1. Information to be Disclosed

We will disclose the total score (of the oral examination and application documents).

2. Disclosure Request Acceptance Period

• 2nd Application Period: **From 1:00 pm on Tuesday, February 28, 2023 to Thursday, March 30, 2023** (except Saturdays, Sundays, and public holidays)

- Visit at office: 9:00 a.m. to 4:00 p.m. (closed 11:45 a.m. to 1:00 p.m.)
- Written request made by post: Request must be postmarked during the abovementioned period.
- Disclosure requests made after the acceptance period, whether in person or by post, will not be accepted.

Submit to:

Entrance Examination Group, Education Support Division, Iwate Prefectural University 152-52 Sugo, Takizawa, Iwate 020-0693, Japan Tel: 019-694-2014

3. How to Ask for the Disclosure of Personal Test Results

(1) By office visits

- i . The request must be made by the person who took the examination.
- ii . We will not disclose the results over the telephone.

iii. The person making the request must present his/her Iwate Prefectural University Examination Admission Card (the Original) to confirm his/her identity.

(2) By written request made by post

Please submit the following documents by registered mail if making the request from within Japan or by Express Mail Service (EMS) if making the request from outside of Japan.

i . Request Form for the Disclosure of Personal Information (the person making the request must be the person who took the examination and the request form must be filled out by such person).

Note: Please download the request form from the University website at <http://www.iwate-pu.ac.jp/examination/kaijiseikyu.html> (in Japanese).

ii . Examination Admission Card

iii. A self-addressed envelope [Type No. 3] (with the name, address, and postal code of the person making the request. The address on the envelope must be the person making the request. Please enclose postage stamps equivalent to 404 yen if the request is from within Japan; or International Postal Coupons if sending from outside of Japan.)

[Number of coupons needed]

Region	Asia	North America, Central America, Oceania, Middle East	Europe	South America, Africa
Number of coupons needed	11	16	17	19
Japanese yen equivalent to the coupons	1,400 yen	2,000 yen	2,200 yen	2,400 yen

Note: If you wish to enclose Japanese postage stamps instead of International Postal Coupons, please make sure that the value of the stamps is equivalent to the relevant amount described above.

4. Disclosure Method

(1) For office visit

Your test results will be disclosed orally on the spot.

(2) For written request

A letter containing your test results will be sent in the provided envelope by post (e.g., registered mail).

IX. Handling of Personal Information

In principle, except when required by law or regulation, personal information that we have obtained through application documents and other materials, and personal test results that we have used for student screening, will not be provided to third parties without the applicant's consent. However, personal information that we have used for student screening will be utilized for university administrative purposes, such as candidate-selection-related operations (e.g., entrance-exam-related statistical processing, research and studies on entrance examination systems), educational affairs management for enrolled students (e.g., enrollment records, academic guidance), student support management (e.g., health management, scholarship application), and payment management (e.g., tuition fee).

X. Education and Research Areas

1. Education and Research Areas (Please confirm the details in advance as the listed items below are subject to change due to faculty member transfers or other reasons.)

Data • Mathematical Science Course (◎: Main Areas of Education and Research, ○: Others)

Faculty Member	Web informatics, Service informatics	Operations research	Operating system	Machine learning	Educational technology	Teaching-learning support systems	Embedded system	Management engineering	Management information	Instrumentation engineering	Optimization	Natural language processing	Social infrastructure risk management	Information retrieval	Information systems	Information security	Theory of informatics	Mathematical informatics	Mathematical statistics	Simulation engineering	Sensor network	Software science	Software engineering	Pattern recognition	Parallel / distributed processing	Mobile network	Risk analysis

研究テーマ

Data・Mathematical Science Course

Faculty Member	Research Theme
Professor・Toshimitsu INOMATA (伊藤 俊光)	Static Analysis Method of Programs by Mathematical Method, Source Code Impact Analysis, Programming Learning Method for Beginners
Professor・JiaHong WANG (王家)	Selected Research Projects Conducted by the Research Group: An Approach to Constructing Infrastructure-independent Cloud Services; Online Storage Systems Using RAID Technologies; A Routing Algorithm for Mobile Ad Hoc Networks Used in Disaster-hit Area; A Distributed Privacy Preserving Data Mining Algorithm.
Professor・Toyoo TAKATA (高田 豊雄)	Identifying Relations between Frequent Patterns Mined at Two Collaborative Web Sites
Professor・Takeo TAKENO (竹野 健夫)	Mathematical Programming, Stochastic Models and their applications in Information Systems for Production, Distribution and Management Systems especially for Inventory Control, Production Scheduling, Vehicle Routing.
Associate Professor・Katsumasa OOHORI (大堀 勝正)	Mathematical Statistics, Mathematical Modeling, Risk Analysis, Risk Management and Resource Allocation in infrastructure such as road and
Associate Professor・Azuma OKAMOTO (岡本 東)	Combinatorial optimization, Production and transportation scheduling (routing), Application of positioning technology for production process, Software component and software reuse, Information system for local public organizations
Associate Professor・Eiichiro KODAMA (児玉 英一郎)	Semantic Web, Linked Data, Algebraic Number Theory
Associate Professor・Ikumi SUZUKI (鈴木 郁美)	Natural Language Processing and Machine Learning. For example, Building natural language generation models, kana-kanji Conversion systems and grammatical evaluation methods. High-dimensional data analysis. For example, studying for nearest neighbor method, word embedding models, supervised learning and semi-supervised learning.
Associate Professor・Atsushi TAMURA (田村 篤史)	Development of non-Euclidean geometry teaching materials for exploratory learning, development of college geometry teaching materials using Julia. Basic research on mathematical ability and talent, and theoretical research on mathematics gifted education.
Associate Professor・Shigeyuki YAMABE (山邊 茂之)	Support Systems of Human Machine Symbiosis
Assistant Professor・Stephanie Nix	Simulation-based research with biomedical and agricultural applications
Assistant Professor・Keizo YAMADA (山田 敬三)	Characteristics discovery using genetic algorithm, Combinatorial optimization using genetic algorithm, Recommendation using multiagent system, Application to the recommendation of item response theory, Recommendation using the Analytic Hierarchy Process.
Instructor・Kentaro KATAMACHI (片町 健太郎)	The Simulation for Solute Transport in Soil Using CIP Method

Computer Engineering Course

Faculty Member	Research Theme
Professor・Dawei CAI (蔡 大緯)	Wireless Communication for Portable Device, Development of Wearable Device with NFC and wireless recharge technology, Automatic Guidance System and Advance Management System
Professor・Hiroyuki SATO (佐藤 裕幸)	Applying technology of high performance processors to the embedded system, Applying technology of high performance processors to large scale system, Real time image processing for the autonomous running control system of an Automatic Guided Vehicle
Professor・Koji HASHIMOTO (橋本 浩二)	Research and Development of Backend System for Live Streaming, Configurable Software Components for Tele-Conferencing System, User Interface Functions for Multi-Point/Angle Live Streaming System
Professor・Bhed Bahadur BISTA	Wireless Communications and Networking
Professor・Hiroshi MABUCHI (馬淵 浩司)	Solving Problem based on declarative Computation Model, Natural Language Understanding based on declarative Computation Model, Constructing Intelligent E-learning System, Automatic Music Composition using Features from Various Musical Pieces
Associate Professor・Yoshikazu ARAI (新井 義和)	Local Communication Device, Multiple Robots Cooperation, Collision Avoidance between Robots, Motion Recognition of Robot, Robot Navigation, Automobile Drive Support System, Vehicle-to-Vehicle / Road-to-Vehicle Communication
Associate Professor・Shintaro IMAI (今井 信太郎)	A cooperation method between the plurality of nodes for processing large amounts of data, A sensor system for a small scale farmer; Non-volatile Networking for smooth communication in large-scale disaster situations
Associate Professor・Yoshia SAITO (齋藤 義仰)	Implementation and Evaluation of a Road Information Sharing Scheme with a Still-Picture Internet Broadcasting System
Associate Professor・Akimasa SUZUKI (鈴木 彰典)	Kansei Search for Foods Using Onomatopoeia, Search System for Local Dishes and Restaurants, Notification around a Vehicle by Tactile Sense Using Seat Actuators, Indoor Positioning System Using SS Ultrasonic Waves, and Robot Monitoring System Using SS Ultrasonic Waves
Associate Professor・Masaki NARITA (成田 昌博)	A Practical Study on Noise-Tolerant PN Code-Based Localization Attacks to Internet Threat Monitors
Assistant Professor・Hisayoshi ITO (伊藤 久祥)	Suitable Image Resolution for Feeling of Linkage, Lesson Evaluation Index with Students' Gazes, Submitted Documents Management in University Classes Using QR Codes, Simple Testing for Visual Field Defect with Vowel Recognition
Assistant Professor・Nobuyoshi SATO (佐藤 永敏)	Raid Road Map Survey for New Roads Using GPS Trajectories as Collective Intelligence
Assistant Professor・Eiji SUGINO (杉野 栄二)	Improving the Commercial Vehicle Safety by Collecting and Sharing Geographic Alarm Information

Artificial Intelligence Course

Faculty Member	Research Theme
Professor, Yoshiaki ITO (伊藤 慶明)	Spoken Term Detection (STD) in Multimedia Data
Professor, Masashi KAMEDA (亀田 昌志)	Efficient Image Compression Method based on Basis Function, Super Resolution for Medical Images, Object Recognition using Spherical Panoramic Images, Objective Quality Measure for Inflammatory Reactions in Medical Nursing Support
Professor, Akio DOI (土井 章男)*	Advanced Visualization and Medical Imaging
Professor, Oky Dicky A. PRIMA	Eye Tracking using both visible and infrared spectrum, automatic behavior (facial expression, head-nod, head-pose, utterance, and eye-blink) coding using a single omnidirectional camera, bio-information sensing, and communication support device for motor disabled patients.
Associate Professor, Masaki KUREMATSU (榎公 理伸)	A study of estimation issues and methods from patent documents based on term frequency in patent documents classified by experts. A study of speech synthesizes using sense of language and songs. A study of a triage support system for an emergency room. A study of speech recognition for diverse dialect.
Associate Professor, Kazumori KOJIMA (小嶋 和徳)	Parallel Distributed Evolutionary Computation
Associate Professor, Takahisa SANADA (眞田 尚久)	Neural representation of visual perception, Neural mechanisms of multimodal integration, Representation of middle-layer of deep convolutional neural network (DCNN), Representation of motion defined material feature and natural image recognition.
Associate Professor, Ying DAI (戴 莹)	Image/Videos retrieval considering human's Kansei, Individual's status prediction and context understanding using big sensor data, Facial image's Extraction and recognition, and emotion recognition based on the facial expression image.
Associate Professor, David RAMAMONJISOA	Ontology Modeling and Text/Data mining Applications, user comments, finance news and social networks analysis with AI techniques
Associate Professor, Jun HAKURA (羽倉 淳)	A Study on Invariant Detection from Time Series Data
Associate Professor, Masafumi MATSUHARA (松原 雅文)	Web Search Method for Mobile Phone, Text Input Method, Predictive Input Method, Eyes-Free Input Method, Japanese Input Method using Image Information, Pressure-Aware Character Input Algorithm for Mobile Phones, Context-Aware Character Input Algorithm for Mobile Phone Based on Artificial Neural Network, Twitter User Recommendation System, Music Recommendation System
Associate Professor, Hirokazu MADOKORO (間所 洋和)	Study on Machine Learning and Computer Vision: Study on Human Sensing Study on Smart Farming Study on Low Carbon Emissions

A professor with * will retire in March 2023.

Social Systems Design Course

Faculty Member	Research Theme
Professor, Akihiro ABE (阿部 昭博)	Practical study of regional information systems (tourism, community development, humanities), Information systems analysis and design (service design, participatory approach), Tourism informatics, GIS for solutions of social problems
Professor, Takashi OGATA (小方 孝)**	Narrative generation system, Cognitive science, Artificial intelligence, Natural language generation, Conceptual dictionary, Narratology, Literary theories, Story analysis, Narrative discourse, Media, Contents, Creativity
Professor, Hiroshi NUNOKAWA (布川 博士)**	TSP model service design of fourth-generation electronic book
Professor, Mitsuyoshi HORIKAWA (堀川 三好)	Cyber Physical System, Visualization for manufacturing system, Indoor positioning system, Web personalizes, Visualization for community, Motion estimation
Associate Professor, Hisashi ICHIKAWA (市川 尚)	e-Learning Teaching-learning support systems (Educational technology), Information systems
Associate Professor, Toshifumi UETAKE (榎竹 俊文)	Visualization of corporate and social information resources (knowledge, technology, know-how, etc.), System proposed by utilizing the information resources, Information systems development and evaluation using the methods and theory, such as management engineering and computer science & engineering.
Associate Professor, Miho NISHIZAKI (西崎 実穂)	An ecological approach to perception, action, and design (graphic design, accessible design, database, and AR application)
Associate Professor, Koichi MATSUDA (松田 浩一)	Human Computer Interaction, CG, Geometric Modeling, Visualization of the local entertainment skills
Assistant Professor, Kanayo OGURA (小倉 加奈代)	Developing Novel Communication Media based on Internal Properties of Human
Assistant Professor, Kiwamu SATO (佐藤 亮)	Japanese Sentence Handwriting Learning System for Special Needs Education
Assistant Professor, Hiroki TOMIZAWA (冨澤 浩樹)	Information systems analysis design and operation, Development and operation of the digital archive as information systems, Collection and utilization of regional information for town planning and tourism-based community development, Experimental Social Sciences
Assistant Professor, Dai NISHIOKA (西岡 大)	Research on Anshin about information security
Assistant Professor, Kenichi MINAMINO (南野 謙一)	Systematic Utilization Method of Knowledge for Creative Activities

A professor with ** will retire in March 2024.
